

SEA PRO

► MILESTONES IN SEA PRO'S HISTORY

Sea Pro is founded by the Hancock family in Newberry, South Carolina, based on a goal of providing boaters with superior quality, thoughtful features, and excellent value. A strong reception nationwide gives Sea Pro a strong foundation to build on.

The Sea Pro brand is purchased from the Hancock family by Brunswick Corporation, who want to acquire the brand based on its growing roster of popular models and excellent reputation.

The Sea Pro name is purchased by Jimmy Hancock and Preston Wrenn, and a new South Carolina factory is established to resume manufacturing. The brand is re-launched with new flagship bay boat and center console models, reaching new customers while re-connecting with legions of Sea Pro enthusiasts nationwide.

Sea Pro invents the award-winning Family Sandbar Boat, combining the traditional Sea Pro ride and fish-ready features with an innovative cockpit layout and amenities designed to maximize family fun while cruising, enjoying watersports, or hanging out at the local sandbar. An instant success, a second model is quickly added.

►1989

►2000

►2005

►2008

Sea Pro expands production to become one of the largest saltwater brands in the industry, building a full range of boats from 15 to 34 feet. Every model combines superior hull design, unexpected features, and quality construction.

The 2008 economic recession has a profound negative impact on the recreational boating industry, causing Sea Pro Boats (and many other builders across the country) to close. Fortunately, you can't keep a great brand down and this will not be the end of the Sea Pro story.

►2015

►2020

►2023

►TODAY

Sea Pro launches its 32-foot center console, the largest models in its new line-up, along with first dual console models, significantly expanding the brand and broadening its appeal to boaters. These developments demonstrate how Sea Pro listens to its dealers and customers and gives boaters what they want.

Sea Pro continues to evolve, grow, and expand by launching multiple new boat models each year, constantly pushing the limits, and bringing new ideas, features and models to the industry and the boating public. This includes the new 26-foot Family Sandbar Boat, taking this category to a new level.

SEA PRO

All Sea Pro Boats meet the manufacturing regulations established by the U.S. Coast Guard. In the U.S., NMMA Certification goes beyond the minimum USCG standards to ensure adherence to the American Boat & Yacht Council (ABYC) Standards.

YOUR WEEKEND, YOUR BOAT, YOUR WAY

GEL COAT OPTIONS

With Sea Pro’s full palette of gel coat colors, you’ll be sure to find the ideal match for your sense of style. Specially created hull and other color options compliment Sea Pro’s sleek lines and make your new boat truly yours.

Customizable Options Include:

- Hull Side Color
- Hard Top Color
- Hull Bottom Color
- Engine Color
- Console and FGLP Color
- Powder Coat Color
- Console Helm Pad Color
- Upholstery Color
- Hard Top Underside Color

YOUR WEEKEND, YOUR BOAT, YOUR WAY

UPHOLSTERY OPTIONS

Sea Pro’s beauty is more than skin deep — choose from a range of upholstery options to compliment your boat’s overall color scheme. A boat that looks this good on the outside deserves an interior just as beautiful.

YOUR WEEKEND, YOUR BOAT, YOUR WAY

POWDER COATING

Our quality in-house powder coating process is rugged and attractive. A trio of available powder coat color options give your railings, rod holders, hardtops, and other metalwork a distinctive touch of class and long-lasting protection for many seasons to come.

YOUR WEEKEND, YOUR BOAT, YOUR WAY

LEANING POST OPTIONS

With many versatile leaning post/helm seating options to choose from, you'll enjoy a perfect blend of comfort, function and fishability. When you're at the helm of a Sea Pro boat, fishing adventure awaits you at every turn.

Offshore Console - Boats available on: 242 Center Console, 262 Offshore, 245FLX, 265FLX

Delux Console - Boats available as Standard or Optional: 210 Bay, 230 Bay, 250 Bay, 202 Center Console, 225FLX

Standard Large Console - Boats available on: 250 Bay, 222 Center Console

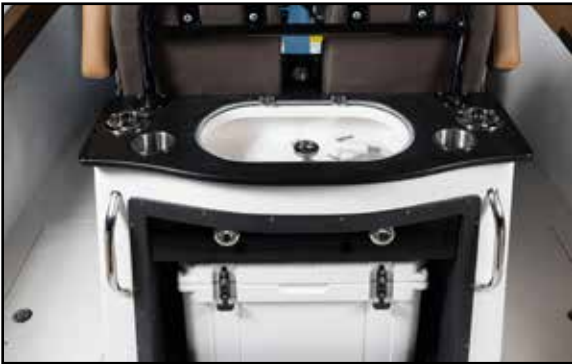

Standard Aluminum - Boats available on: 210 Bay, 230 Bay, 250 Bay, 202 Center Console, 222 Center Console, 242 Center Console, 262 Sport Offshore

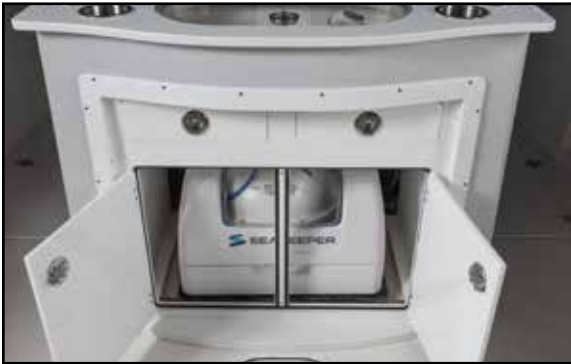

Delux Aluminum - Boats available on: 210 Bay, 230 Bay, 250 Bay, 202 Center Console, 222 Center Console, 242 Center Console

Premium Captains Chairs - Standard on 245FLX, 265FLX and 262 DLX Offshore

BUILD YOUR OWN LEANING POST OPTIONS

Aluminum frame with these add ons:
High-Back-Rest Seats
Flip-Up Bolsters
Adjustable Arm Rest

Leaning Post Tackle Center

With a range of custom leaning post options, boaters can build their own leaning post to suit their preferences, needs and fishing styles. Things like high-back-rest seats, flip-up bolsters, adjustable arm rests and leaning post tackle centers help you make the most of your time on the water, whether you're cruising up the coast, running across an open bay or rigging baits on your way offshore.

SEA PRO CONNECT MOBILE APP

When you purchase a new Sea Pro, you receive the Sea Pro Connect Mobile App with 5 years of service and towing. With the app, you also get:

- 24/7 Mechanical Help Line
- Real-Time GPS Tracking & Playback
- Battery Voltage Monitoring
- Monthly Boat Performance Reports

All of these features are designed to give you peace of mind and full control over your boating experience.

Now standard on the following models:

- 225FLXR Sandbar Boat
- 245FLXR Sandbar Boat
- 265FLX Sandbar Boat
- 292 Offshore
- 322 Offshore

Seakeeper Ride

The new standard feature onboard specific Sea Pro models is Seakeeper Ride — and it's only getting better. You have to experience the “Ride” for yourself, but here’s what makes it stand out:

WHAT IS IT?

Seakeeper Ride is the first-of-its-kind Vessel Attitude Control System (VACS) that eliminates up to 70% of pitch and roll underway.

Key Benefits:

- Pitch & Roll Elimination – Reduces up to 70% of pitch and roll for a smoother, safer ride.
- List/Level Control – Keeps your boat level despite uneven weight, wind, or prop torque.
- Auto Trim – Automatically sets the optimal running angle at any speed.
- Hole Shot Control – Gets you on plane faster with better fuel efficiency and horizon visibility.
- Coordinated Turn – Adjusts heeling during turns for smoother, safer, more controlled handling.

BAY BOATS

Sea Pro delivers everything you'd expect from the country's #1 bay boat builder — stable and roomy fishing platforms, well-planned features, and a great ride in all types of water. With four fish-ready models from 17 to 25 feet, there's a Sea Pro for every type of inshore angler and every fishing adventure. Choose any Sea Pro bay boat — and the only thing you'll go wanting for is more time to spend on the water.

172 BAY

OFFSHORE

Sea Pro's line up of offshore center consoles are built to meet the demands of hardcore bluewater anglers. Three models from 26 to 32 feet inspire confidence and empower your drive for offshore adventure. Featuring Deep-V hulls designed to dominate the water and deliver a solid and dry ride when conditions get nautical. The fuel capacity and efficient performance to reach distant fishing grounds, fish hard all day and get home without worry. And in the Sea Pro tradition, a long list of standard fishing features, quality touches and state-of-the-art technology that set the Sea Pro brand apart from the pack. If you're one of the rare breed who thrives on challenging Mother Nature and pushing the limits in pursuit of tuna, billfish, wahoo and other bluewater game, you've met your match with Sea Pro.
